Experimental Setup

For a demonstration of how you can code and visualize experimental setups, see `?@fig-setup`.

```
#| label: fig-setup #| fig-cap: "Example schematic visualization of equipment setup" import schemdraw schemdraw.use('matplotlib') import schemdraw.elements as elm with schemdraw.Drawing() as d: d += elm.SourceV().up().label('Support') d += elm.Resistor().right().label('Spring') d += elm.Line().down().label('Mass (m)')
```
